

Dear Colleague

We have taken the very difficult decision to postpone All Morgans' Day 2020. This is based on clear Government advice and the fact that Blenheim Palace have announced that apart from their parklands, they will be closed until further notice. We will be working with Blenheim Palace to re-arrange All Morgan's Day for a future date so that we all have something to look forward to.

On behalf of the R100 Register, we would like to thank you for considering either taking a stand at All Morgans' Day or supporting our event by providing leaflets or items for our 'goody bag'. Your involvement would have been vital to our aim of raising much-needed funds for Combat Stress, the UK's charity providing mental health care for military veterans. The decision to postpone All Morgans' Day has significantly reduced our ability to raise much needed money in 2020, and yet we know that the social impact of Coronavirus means now more than ever, veterans with complex mental health problems still need our help. *Please use the following link to see how Combat Stress continues to support military veterans at this particularly difficult time* <https://www.combatstress.org.uk/>

We will be in touch once again when we know what the future holds and very much hope that you will consider supporting All Morgans' Day on the next occasion. More importantly, we hope you, your family, colleagues and community remain in good health at this difficult time.

With best wishes from the R100 Register
